Tall Walking—An Irish pedestrian, named Mullen, recently valked 100 miles, at Newry, in the term of 24 hours. His last mile was done in 85 mautes. The Newry Examiner states that four or five times during the day he stopped for some minutes at the stands, quite confident of his powers; and before going out on his last trip, he delayed fully six minutes. During the evening he walked through the town apparently not much fatigued.

Sugar prom Corn Stalks—We learn from the Wilmington (Del.) Republican of the 9th inst. that Mr. William Webb, living within a half mile of that city, has now in full operation a mill for manufacturing sugar from corn stalks.

Millerism—A miller camp meeting was in operation at Penobscot, about six miles from Castine, Me., on the 7th inst. The great tent, which sulfered so severely at Concord, N. H., this summer, was pitched there, and delegates were present from different parts of the country.

Dropsy—Dr Charter, of Lancaster, Miss., tapped a dropsical patient on the 23d of July, and drew from her about half a barrel of water, weighing 134 pounds—she is since doing well.

Faxarctist in Sweden.—We find the following in a letter from Stockholm, dated August 2:—Religious excitement is at a great height in some parts of Sweden. There are a great number of preachers in the o en air, and on the 10th instant, at Erksrote, not less than 3000 persons assembled to hear one of these out door sermons. During the most passionate part of the preacher's exhortation, several of the men three away their coats, and the women their rings and ear rings, which they trampled under foot, sying they were only the ornaments of the devil.—Amongst the fanatics are two young girls, who have prophecied that the world will be at an end in a month.

TAKE NOTICE!!:—NEW AND GREAT INVENTION—FRANCIS'S HIGHLY IMPROVED MANIFOLD WRITER—By this wooderful invention a letter and duplicate can be written in one operation, with more case and greater facility than a single letter with an ordinary pen and ink. duplicate can be written in one operation, with more case and greater facility than a single letter with an ordinary pen and ink.

To the mercantile, professional, and travelling part of the community, this truly great ravention is of infinite value, as it is a great saving of rinke, rRoynke and expresse. The principa advantage to be derived from the manifold writer is, that a copy of the document may be kept without any advincing a training and attraction of the writer, and without any necessity of using either an iosatiand or a pen. The instrument used for writing is an agate point, consequently it never wears by use. For banks, insurance offices, merchants, men of business generally lawyers, soatmasters, editors, reporters, public officess, and all who may be desirous of preserving opis of their letters, documents, &c., with an immense saving of time, and the satisfaction of having an exact copy of what they have written, this will be found invaluable.

Frame's Manifeld Writer has now been in successful operation two years, during which time the proprietor has had the pleasure of receiving the onfeigned approbation of all whose observation it has come under. At the late fair of the American line intuitie, the ments of the article were examined into by three of the most able chemists in the country, who pronounced it to be a very ingenious and useful contrivance, and not liable to change color by exposure to air, moisture, or chemical gaents. Consequently a medal was awarded by the Institute.

The proprietor has lately made great improvements in this

ore bound in a veriety of forms and sizes, varying in price from 50 cents upwards.

EXPERIENCE

EXPERIENCE

TOR FOUR YEARS has fully tested the extraordinary virtues of DR. SHERMAN'S MEDICATED LOZ'N-GES, Severai million boxes have been sold, and given perfect satisfaction to all who have used them.

PHYSICIANS AND CLERGYMEN,
Lawyers, 'rofessors, rich and poor, high snd low—in fact, nearly the whole American people, have given them their sauction, and they are now hest spreading their unfluences to every part of the known world.

Drs. Hunter, Smith. Rogers, Vanderpool, Scott, and four hundred other physicians in New York city alone, recommend Sherman's Lozeuges, daily, in their practice. Sherman's Medicated Lozenges are never sold by the ounce, but always in boxes, with its name attached. The Doctor being an educated and experienced physician, and a member of the Medical Society of the city of New York, gives a character to his preparation a than no others enjoy.

been given up as incurable.

WORMS CAUSE DEATH

To thowsands, without their ver being suspected. Children and adults often suffer much from them, when a box of Sherman's Worm Lozenges would give them immediate relief.—Hundrids or instances have come to our knowledge, where the substances have come to our knowledge, where they are stored them to health and happiness. How often have mothers called at the Warehouse and poured forth their thanks and blessings for the restoration of their dear beloved offspring, Never before has a perfect remedy been discovered for the entire cradication of all kinds of worms.

HEADACHB, PALPITATION,
Lowness of Sprints, Fatigue, Fainting, Desgondency, Nervous Diseases generally, and Sea Sickness, are all subject to the carative properties of Sherman's Camphor Lozenges. They care severe headaches, &c. in ten minutos. In fact, they operate like a charm, and no person should go to sea without them, as they are infallible in sea sickness. Persons subject to fatigue, or attending crowded parties, will find them to relieve them of all tassitude and oppression.

MEDICAL AID.

DR. GREGORY, long accustemed to prescribe for diseases of a private nature, resides at 34 Mott street. He has been familiar with these complaints many years, and having been a paracular and close observer of cause and effect, he has obtained a thorough practical snowledge of this branch of his profession, which has enabled him to introduce some valuable improvements into his practice. He does not boast of making rapid and hasty cares, but his sarisfaction is to perform thorough and radical cures, and in as short a space of time as it can possibly be done, with advantage and safety to the patient; and generally speaking, it is not necessary for the patient to observe any change in bosiness pursuits. Hasty, and consequently imperfect cures are the source from whence result so many distressing cases of consecutive or secondary symptoms; and the like result frequently follows the use of many advertused remedies; for this reason—that any medicine, however good in the first or primary stages of the complaint, cannot be supposed to exert the same power and influence over the human system when its administration has been long continued; and thus while the patient is swallowing medicine from day to day; his disease, if not changing to a chronic form, to say the least, is very likely to terminate in a permanent debility, or perhaps something worse.

Dr. Gregory deems it, worthy to remark, that he has often

GUIDE TO SOUND TEETH.

LADIES NEED NOT DESPAIR.

DR. A. C. CASTLE, Dentis, 29: Broadway, New York,
has a Marmosilicon Paste, for filling decayed hollow teeth.
It is perfectly harmless in its composition, and can be put into
the most tender tooth without pain or inconvenience, and with
which it becomes impacted as one solid body, maintaining its
original appearuses and uses for life. The numerous test'monials from ladies in the first class of society speak in the most
glowing terms as to its efficacy. The Evening Post, 2d May,
says—"It is admirably adapted for sore or tender teeth, and to
neryous persons, and Dr. A. C. Castle operates on the teeth

The Evening Post, 22d May, says—"It is admirably dadpted for sore or tender teeth, and to nervous persons, and Dr. A. C. Castle operates on the teeth with great care and ability."

The following, from the New Orleans Picayane, Dec. 8th, sufficiently speaks of Dr. C.'s skill as a mechanical dentist: "Lieut. —, who was employed in the Florids service, during an engagement, had one side of his lower jaw and part of the upper shot away. It was feared that the loss would be permanent, but meeting with Dr. A. C. Castle, of New York, an artificial substitute, with teeth, was made and fitted in, and the officer has now the perfect use of this shattered but important organ. Dr. A. C. C. inserts teeth on the principle of adhesion by atmospheric pressure, from one to an entire set of teeth."

Toothache Fills, one of which put in the painful tooth will effect a permanent cure.

Dr. A. C. C. refers to the Spanish Ambassador, Spanish Consul, Mrs. General Gaunes, Dr. F. U. Johnson, President of the Medical Society, and the several Professors of the New York Haiverstry of Physicians and Surgeons:—J. Torrey, M. Dr., J. B. Berk, M., D., E. Delafield, M. D.

ARTIFICIAL TEETH,
ON THE PRINCIPLE OF ATMOSPHERIC
PRESSURE.

M. the year 1823, of inserting Teeth on the above scientific principle, as practised by hunself ALONE, courts the attention of the public to his great improvement. The estadished reputation of Dr Levett, his easy, well known, peculiar, and actentific adaptation in supplying the deficiencies of the Teeth, and the unvaried satisfaction given, which he fully goarantees are all cases, warrants his inviting the attention of the Idees and gentlemen who have had artificial Teeth unskiffully set, or who may require new for those displaced by nature.

M. LEVETT, Dentist, 260 Broadway, corner of Warren at apposite the Park.

[Copy of a Letter from Judge Noah to Dr Levitt.]

That the set of artificial teeth on the principle of atmospheric pressure which you made for a lady in my family, has succeeded in every respect, in appearance, comfort, and utility, and has given entire satisfaction.
